Developed sophisticated applications, like Vision Rewards System with Kenna for BASF which is delivering real-time tracking of customer rewards, payments, and transactions.

SKILLS

- SQL Server
- MySQL
- GIT/GitHub
- HTML
- CSS/Bootstrap
- JavaScript
- React JS
- Node.js/Express

WORK EXPERIENCE

Application Programmer (Full Stack Developer) Kenna Communication LP, Mississauga, ON, Canada May 2023 – September 08, 2025

- Served as full-stack developer on the Vision Rewards USA project, utilizing React.js, Node.js, and SQL Server to build a robust rewards management platform.
- Designed and maintained features for tracking customer rewards, payments, and transactions, enabling clients to monitor activity in real-time.
- The system improved customer engagement and streamlined rewards operations, saving time and enhancing transparency for clients..

Full Stack Developer MRRD/RPCO, Afghanistan January 2021 – August 2021

- Architected and implemented RPCO software using HTML/CSS/Bootstrap, React.js, Node.js/Express.js, and SQL Server to centralize project management.
- Enabled seamless oversight of all projects, workflows, and resources from a single dashboard, resulting in 100+ hours saved per month and thousands in cost reductions.
- Provided clear, actionable insights into project status, improving decision-making and operational efficiency across teams.

Software Engineer Barikab Durani Construction Company (BDCC), Kabul, Afghanistan May 2019 – December 2020

- Created BDMIS, a comprehensive system for financial operations, HR, and administrative tasks, built with HTML/CSS/Bootstrap, React.js, Node.js/Express.js, and SQL Server.
- Accelerated workflow processes by 50%, introducing automation that enhanced speed, accuracy, and transparency in daily operations.

Software Developer CMS TETRA TECH JSSP, Kabul, Afghanistan November 2017 – April 2019

- Engineered a sophisticated Case Management System (CMS) for Afghanistan's judiciary, tracking civil cases and managing documents from initiation to resolution.
- Leveraged HTML/CSS/Bootstrap, React.js, Node.js/Express.js, and SQL Server to ensure secure, efficient handling of sensitive data, supporting high-volume court processes.

Database Specialist and Programmer JSSP U.S. State/INL, Kabul, Afghanistan April 2015 – November 2017

- Developed a criminal-focused Case Management System (CMS) for Afghanistan's judicial sector, facilitating end-to-end tracking of cases and related documents.
- Utilized HTML/CSS/Bootstrap, React.js, Node.js/Express.js, and SQL Server to create a reliable platform that improved case resolution times and data integrity.
